

E.DAVID BRYAN,M.D.,
EMERGENCY MEDICINE

- Multicenter study of the efficacy and safety of intravenous amiodarone for the termination of sustained stable wide QRS complex tachycardia

JOHN F.HAYNES,M.D.,
EMERGENCY MEDICINE

- The role of genetic polymorphisms on the excretion of 1-hydroxy pyrene

GRETCHEN LIPKE,M.D.,
EMERGENCY MEDICINE

- Coupling of blood loss and mitochondrial function in healthy blood donors as measured by near infrared spectroscopy

BRIAN K.NELSON,M.D.,
EMERGENCY MEDICINE

- Mitochondrial dysfunction in head injury
- The use of near infrared spectroscopy to investigate mitochondrial dysfunction in septic shock
- Randomized, double blind trial of Sotalol versus Lidocaine for the pharmacologic treatment of stable sustained spontaneous ventricular tachycardia
- Effective of faculty triage on emergency department length of stay

- Effective of resident triage on emergency department length of stay

- Coupling of perfusion and mitochondrial function in the forearms of healthy volunteers as measured by near infrared spectroscopy

REBECCA PARKER,M.D.,
EMERGENCY MEDICINE

- Comparison of Didactic teaching versus individual feedback to maximize coding and billing
