Operating Policy and Procedure

HSCEP OP: 56.01, **1.4.24   VULNERABILITY ASSESSMENT**

PURPOSE:

REVIEW:

POLICY/PROCEDURE:

1.   Vulnerability assessments apply to all institutional computing devices. All information resources, systems, devices, and applications shall undergo an information security assessment and vulnerability assessment prior to production use. Further, all such resources must be approved by the Information Security Officer. Any systems which do not abide by this policy shall be disconnected from the network.
2.   When vulnerabilities are detected, system owners and system custodians are responsible for implementing appropriate mitigations and recommendations.
