## Breedlove: Innovative Humanitarian Relief

Wednesday, November 6, 2013

ACB 120, 12:00 noon

Breedlove Foods, Inc. is a non-profit organization committed to alleviating hunger across the globe. Their vision is to be a leader in international humanitarian hunger relief, providing hope to the impoverished through growth and innovation.

The crisis of hunger, malnutrition, and poverty affects over one billion people, with over 950 million lacking adequate nutrition to maintain health. According to statistics, over 25,000 people die each day from hunger. More than half of all child deaths worldwide are caused by malnutrition. Poor nutrition makes a person much more likely to contract disease and/or suffer from illness. It also reduces the effectiveness of medication.

Breedlove Dehydrated Foods is committed to feeding the hungry of the world by building relationships with commodity producers, distributors, warehouses, transporters, and processors; processing nutritious food of consistent quality; and developing partnerships with other organizations.

Free lunch provided to the first 40 attendees!

Persons needing assistance are  
requested to call 806-743-2900.
