Prior to have installed the VPN client in your laptop, Users needs to have installed the Citrix SSO app in their mobile Phone to generate an onetime password (OTP).

*This Registration is required only once per unique device.

**Phone registration to generate one time passwords (OTP)**

1.- From your mobile phone device open Google Play or Apple store

![App Store and Google Play](image)

2.- Browse & install the app “Citrix SSO”,

![Citrix SSO app](image)

3.- To Register your Phone in the VPN Platform from your PC/Laptop where the VPN will be installed, Open a new Chrome, Firefox or Microsoft Edge Browser and type:

```
https://nsvpn.elpaso.ttuhsc.edu/manageotp
```

4.- The registration page will load, please Login with your eraider account.
5.- On the Registration page Click on “Add Device”

6.- In the Device Name field enter your “phone number” and Click “Go”.

Once is submitted a QR code is displayed on the Citrix Gateway browser page.
7.-Once you got the QR code, Open the Citrix SSO app in your phone, and add a new token scanning the QR code shown in your screen. Make sure the Citrix SSO app have permission in your device to use the camera.

Scan this QR code using the Citrix SSO app from the device to be registered.

a) **Open Citrix SSO app in your Phone (previous installed step 1,2)**

b) Navigate to **Tokens** tab on the app **Home** view.

c) Tap in the “+” or “**add a new token**”
d) Tap **Scan QR Code**.

e) Focus the camera on the QR code on browser

8. - Once it's completed a successfully notification will be displayed.
Citrix SSO auto-populates the device name and secret key, alternatively, you can manually enter the secret key that appears above the QR code. Citrix SSO validates the QR code and then registers with gateway for push notifications. If there are no errors in the registration process, the token is successfully added to the tokens tab.

9.- From your PC Log off from the register process clicking on the upright corner.
Windows Operative Systems VPN Plug-in installation

10(w).- Once you click on log off The browser will be redirected to a new URL:

https://nsvpn.elpaso.ttuhsc.edu

Input your eraider account credentials

When you click the Submit Button the system will send a notification to your phone where the Citrix SSO app is installed.

Open the Citrix SSO app on your registered device and tap Allow.

You will receive a Push notification on your Mobile Phone. Otherwise after 30 sec a manual validation will appear to submit the OTP value generated from your mobile device.
Once your OTP is validated, the system will ask to Download the VPN plugin for Windows.

Please follow the instructions to install the Windows client in your system (Administrator PC rights are required).
12(w).-After Installation the “Citrix Gateway” client be automatically connected to the network, and in your taskbar menu a new grey/blue icon will be added showing the status of the connection.

To disconnect to the VPN click on logoff button in your client.
Existing Citrix Gateway VPN Users

When your phone is currently registered and the VPN Plug in is installed in your Windows or MAC system.
