

## USE OF CONTROLLED SUBSTANCE LOG FORM

**Use of controlled substances shall be logged separately for each use of the substance:**

This record shall be retained by the Principal Investigator/licensee for at least two years after obtaining the substance and be available for review by TTUHSC El Paso, DEA, or DPS representatives upon request.

**Principal Investigator:** \_\_\_\_\_

**Department:** \_\_\_\_\_

**Phone/Email:** \_\_\_\_\_

**Controlled substance used:**

Type \_\_\_\_\_

Strength/Concentration \_\_\_\_\_

| Date used | Description of experiment | Location where used | Quantity (starting value) | Amount used | Used by (signature required) | Quantity remaining |
|-----------|---------------------------|---------------------|---------------------------|-------------|------------------------------|--------------------|
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
|           |                           |                     |                           |             |                              |                    |
