Subject: IRB Policy on Students/Residents Conducting Human Subject Research Outside of the Institution
Date: Wednesday, January 4, 2023 8:09:46 AM

CAUTION: This email originated from outside of TTUHSC. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Research Community,

Please make note of the Human Research Protection Program (HRPP) policy below regarding students/residents conducting research outside of the institution:

HRPP 2.2.1 Research conducted by students/residents with IRB approval from another institution

In certain cases, TTUHSC El Paso students or residents who are engaging in research projects which have been reviewed and approved by another institution's IRB may not require separate review by a TTUHSC El Paso IRB. TTUHSC El Paso will not generally require a separate review of a study protocol in which a TTUHSC El Paso student or resident is involved if **ALL** of the following conditions are met.

- The research is being conducted at an institution with an OHRP Federal-Wide Assurance.
- All research activity will occur at the other site.
- No research activity will be taking place at TTUHSC El Paso or at an institution affiliated with a TTUHSC El Paso IRB.
- A principal investigator from the other institution will be responsible for oversight of the project.
- The student/resident is listed as research personnel on the IRB-approved protocol at the research site.
- TTUHSC El Paso is not the recipient of funding for the research project.

If any of the conditions above are not met, the project will require review and approval by a TTUHSC El Paso IRB, as well as the other institution's IRB, prior to the student/resident's involvement in the project.

For additional information related to human subject research, as well as contact information for any questions, please review the IRB Website at: [Institutional Review Board Administration \(ttuhsc.edu\)](http://ttuhsc.edu)

Thank you,

TTUHSC El Paso Institutional Review Board
