

A NEW FRONTIER *in* MEDICINE

TEXAS TECH UNIVERSITY
Health Sciences Center
Paul L. Foster School of Medicine™

<http://www.ttuhsc.edu/fostersom/>

■ THE CAMPUS

Students will learn in state-of-the-art educational and clinical facilities. The new 125,000 square-foot Medical Education Building has four floors and a partial penthouse.

Clinical training is provided at R.E. Thomason General Hospital, the El Paso Psychiatric Center, William Beaumont Army Medical Center, and the school's own ambulatory clinics. Numerous off-campus community sites are also used.

■ MEDICAL EDUCATION

The school's educational program is an integrated curriculum that is permeated with clinical presentations assigned to organ-system based units. Clinical presentations are the ways in which a patient presents to a physician. Students will learn anatomy, biochemistry, physiology and other basic science concepts and content needed to understand specific clinical presentations at the time that the presentation is being addressed.

■ APPLICATIONS

Submit through TMSAS
