Standard Policy and/or Procedure

TITLE: Out of Country Rotations

APPROVED: 03/14/2014

REVISED: 11/30/2015

EFFECTIVE DATE: 03/14/2014; 11/30/2015

PURPOSE: For the Sponsoring Institution, through the GMEC, to assure that individual residency/fellowship programs have established procedures for documentation and approval of out of country rotations by residents and fellows.

POLICY STATEMENT: The purpose of an out-of-country rotation is to provide a training experience that enhances the educational curriculum of the trainee. The rotation should be in alignment with the respective Accreditation Council for Graduate Medical Education (ACGME) program, American Board of Medical Specialties (ABMS), and departmental requirements. It is the responsibility of the Resident's/Fellow's program to secure the proper funding for these rotations.

All trainees seeking *humanitarian healthcare activities* in other countries should be aware that these activities **are not considered educational in nature**. If trainees would still opt to pursue this action, they must understand the sole responsibility falls on them.

Generally, Residents/Fellows interested in out-of-country rotations should begin their search for potential educational opportunities through our Global Health Council office.

All out-of-country rotations must have a fully executed Affiliation Agreement and Program Letter of Agreement already in place with a **U.S. residency/fellowship training institution** prior to requesting a rotation.

PROCEDURE: All out-of-country rotations must receive approval from (1) the Graduate Medical Education Committee (GMEC), (2) the Resident's/Fellow's Program Director, (3) the department chair; and (4) the Office of Graduate Medical Education (GME) before a Resident/Fellow is able to participate in the rotation.

1. Prior to obtaining final approval and departing for an out-of-country rotation, the Resident/Fellow must submit the following documents to GME.
 - a. Rotator Request Form. The requesting program must submit the Rotator Request Form via GMESharePoint at least **six months** prior to start of the out-of-country rotation.
 - b. Curriculum. The host institution must provide the institution's curriculum (service and educational), and list of core and miscellaneous responsibilities for the Resident/Fellow.
 - c. Letter from the Resident's/Fellow's Program Director. This letter must state whether or not the Resident/Fellow will receive credit for this rotation and procedure/case logs from this

- rotation toward completion of the program. If full credit will not be given, this letter must outline the terms of the extension of the period of training that will be required for completion of the program.
- d. Contact Sheet. The contact sheet (attached to this policy) must include the Resident's/Fellow's contact information in country (address, phone), emergency contact information (both in the United States and the host country), a copy of the travel itinerary, and a copy of the Resident's/Fellow's passport, as well as any authorization for TTUHSC El Paso to contact emergency points of contact.
 - e. Emergency Evacuation Insurance and Repatriation Insurance. The Resident/Fellow must procure, at the Resident's/Fellow's expense, emergency evacuation and repatriation insurance and provide evidence of same.
 - f. Resident/Fellow Out of Country Release, Hold Harmless, and Indemnification Agreement. The Resident/Fellow must fully execute and provide the Out of Country Release, Hold Harmless, and Indemnification Agreement in the form attached to this policy.
 - g. Statement of Understanding. The Resident/Fellow must fully execute and provide the Out of Country Statement of Understanding in the form attached to this policy.
2. Rotations must be arranged so as not to create significant service coverage problems.
 3. Resident/Fellow may request an out-of-country rotation **once** during their entire residency or fellowship training program. The Resident/Fellow must have completed at least his/her first year of residency or fellowship training and must be in good standing before requesting approval for an out-of-country rotation.
 4. If the Resident/Fellow is not fluent in the host country's language, arrangements should be considered for translation services.
 5. Any services provided should be under the supervision of a U.S. residency/fellowship training institution faculty member at the host institution.
 6. Health Insurance may be available under the Resident's/Fellow's current plan. Residents/Fellows should check with Human Resources regarding whether their insurance will provide coverage while the Resident/Fellow is on rotation.
 7. The length of each out-of-country rotation must be for a maximum of a **continuous one-month block** or **4 weeks**, as applicable.
 8. Residents/Fellows are solely responsible for obtaining travel immunizations, medications, visas, passports, travel insurance (if desired), and meeting other administrative travel requirements prior to approval of this rotation.
 9. Resident/Fellow will be responsible for arranging and paying for their own travel, room, board, and incidental expenses during any out-of-country rotation.
 10. Resident/Fellow will continue to be employed and receive salary and/or employee benefits ("Compensation") while assigned to the out of country rotation.

11. Residents/Fellows are prohibited from the following:
 - a. Using any financial resources provided by foundations or companies that have direct ties with pharmaceutical, formula, or biomedical companies;
 - b. Visiting any country with a U.S. State Department “travel warning”;
 - c. Engaging in any activities that have direct political, military or religious implications on foreign soil while in training as a Resident/Fellow on an out-of-country rotation;
 - d. Any medical procedures or treatments that clearly contradict the standards of ethical practice in the United States or the program or TTUHSC El Paso; or
 - e. Distributing controlled substances as part of a plan of patient care without appropriate authorization in accordance with the laws and regulations of the country in which the rotation takes place.

12. After the rotation:
 - a. The Resident/Fellow must provide the Program Director with a minimum of one evaluation at the end of their trip, using core ACGME competencies and goals and objectives for the rotation. This one competency-based evaluation must be completed by the supervising physician who directly supervised the Resident/Fellow in the international rotation.
 - b. The Resident/Fellow must also supply a letter of completion from the host institution’s supervising physician in order to receive credit for the rotation; and
 - c. Resident/Fellow must provide the Program Director with a report/journal of their activities, functions, achievements, social, medical, and educational impact/contribution at the end of their rotation.
