Objectives:
- Define marginalization and identify marginalized populations.
- Describe mental health disparities in vulnerable patient populations.
- Examine effects of discrimination on patients and providers.
- Explore resources for wellness and challenging marginalization.

Lindsay E. Page, M.D.
is currently a geriatric psychiatry fellow at Baylor College of Medicine. She completed her general psychiatry residency at UT Southwestern Medical Center in Dallas. She received her medical degree from TTUHSC El Paso Paul L. Foster School of Medicine. She and three other medical students, with the help of Mayra Morales and Jessica Calderon-Mora in the Office of Diversity Affairs, created the first Gay-Straight Alliance on the TTUHSC El Paso campus in 2013. She was inducted into the Gold Humanism Honor Society in 2015 while at TTUHSC El Paso for her work in advocating for marginalized and underserved populations. She continued her work in advocacy and health in residency as she served as the co-chairperson of the UT Southwestern Department of Psychiatry LGBTQ Inclusion Committee and served as a member on the Race, Diversity and Inclusion Committee. Her work in both committees focused on improving the health of vulnerable and marginalized populations through resident and medical student education and improvements in patient care services. Her interests include geriatric psychiatry, social determinants of mental health, sexual and gender minority mental health, and medical education.

Disclosure Policy:
It is the policy and practice of the Texas Tech University Health Sciences Center El Paso Paul L. Foster School of Medicine Office of Continuing Medical Education (CME) to resolve all potential conflicts of interest prior to the activity. Lindsay J. Page, M.D., has no relevant financial relationships to disclose.
